SHOOTING ORDER

P. KYL

SHOT TO MOVE**DESCRIPTION**

The competitor begins firing at the small KYL from the largest to the smallest target, obligatorily switching the tanktrap leg in the sequence P1-P2-P3 after each shot. If a miss occurs at this stage, all points are reset to zero, and the shooter may repeat the entire procedure from the beginning, time permitting. After successfully hitting all eight plates on the small KYL, the points are recorded as safe, and the competitor moves on to the identical sequence on the large KYL. A miss while shooting at large targets results in the loss of points only for that stage, allowing a second attempt to complete it without the risk of losing points from the small KYL.

WEAPON CONDITION: Option 2, any number of magazines loaded with any amount of ammo

TARGET	SIZE	DISTANCE	ELEVATION	WIND	NOTES
KYL	KYL	45 M			
KYL	KYL	80 M
